[Lung Health](#) 2020 is pleased to welcome all enthusiastic Pulmonologist, experts, authors and participants from around the globe to the prestigious "3rd World Congress on COPD, Pulmonology and Lung Health"

[Chronic respiratory diseases](#), including chronic obstructive pulmonary disease (COPD) and asthma, are responsible for a substantial health and financial burden each year. 6.7% of all deaths were due to chronic respiratory diseases, which were the fifth leading cause of death. Geographically precise annual estimates of chronic respiratory disease mortality by type would allow a more complete understanding of regional variation in chronic respiratory disease mortality rates and may be useful for clinicians and policymakers interested in reducing geographic disparities and the health and financial burdens of chronic [respiratory diseases](#) overall. It is also stated that about 60% of the available respiratory devices in the market are most commonly used for the COPD patient. In the EU-28, a higher proportion of men than women died from [respiratory diseases](#) (8.3% versus 7.2%). This pattern has been repeated in most EU Member States and has been most pronounced in Estonia, where the gender difference was 2.7 percentage points, Spain (2.6 points), Lithuania (2.3 points), Romania (2.1 points), Latvia and Croatia (2.0 points). In the EU-28, a higher proportion of men than women died from respiratory diseases (8.3% versus 7.2%).

Pneumonic wellbeing has a particular eagerness for the impact changes in respiratory consideration and the care is growing every year, and hence, Lung Health 2019 empowers sections from researchers arranged in USA, Europe and Asian countries. The trial of the field is to evaluate stream promising mediations altogether, address rising issues, for instance, consolidating reliably extending examination revelations and make imaginative dispersal and correspondence strategies. The journal invites sections on investigating in COPD, [Asthma](#), tuberculosis, including emphysema, aspiratory recuperation, cystic fibrosis, different pneumonic illness

and topics related to respiratory prosperity. Lung Health 2019 gives a phase that urges makers to bestow their knowledge into an increasingly broad gathering of spectators and supports a fast method for passages realizing fantastic disseminations. We moreover mean to contribute towards reducing the difference in conveyances from low- and focus wage countries. Our gathering of spectators is around the world, and we intend to share investigate realizes COPD from all pieces of the world.

The Organizing Committee of Lung Health 2020 along with the support of Various Societies and Media Partner takes the privilege to encourage the Participants and Young Researchers from various parts of the globe to stage their research works among the global experts.

The various categories of presentation available at the [Lung Health](#) 2020 are:

- Oral Presentation
- Poster Presentation
- Keynote Talk
- e-poster presentation
- Video Presentation
- Young Researchers Forum

The various awards to be presented at the event are:

- Young Scientist Award and Research Excellence Award
- Best Keynote Presentation
- Best Poster Presentation
- Research Excellence Award

**Young Scientist Award:** Lung Health 2020 Promotes the design of the Young Scientists Awards to promote achievement in various fields of science and technology. Such honours are referred to as "Young Scientist Honours." The creation of the Best Young Scientist Award will be named by the board and, if they wish to print the full-length article, they will be able to publish free of charge in support of the corresponding

# Awards 2020

conference's worldwide journals.

**Eligibility:** Any scientist, engaged in research work laboratories/institutes, who is not more than 35 years of age, is eligible for the Award.

**Criteria:** Each scientist must submit their unique research works.

**Best Keynote Presentation:** Each Speaker will be provided with 40minutes for presenting their research work. The Best Keynote award will be decided by the Scientific and the Organizing Committee.

**Eligibility:** Any scientist, experienced individual in the field engaged in research work laboratories/institutes is eligible for the Award.

**Criteria:** Each individual must submit their unique research works.

**Best Poster Presentation:** A poster is a method of presenting your research to an audience in a visual format. Lung Health 2020 offers the unique opportunity to showcase your research in the poster format. Posters will be evaluated based on the following three parameters; those are Presentation Style (5), Research Quality (5) and Layout/Design (5). Best posters will be given an opportunity to publish the full work at discounted processing charges in the supporting international journals. Best poster Award: 3 best posters will be awarded at the closing ceremony of the conference

**Criteria:** Posters should stimulate discussion, do not give a long presentation. Therefore, keep text to a minimum, emphasize graphics, and make sure every item in your poster is necessary.

**Eligibility:** Any scientist, experienced / Young Researcher individual in the field engaged in research work laboratories/institutes is eligible for the Award.
